*Town of Norris Point*

*Issue 1*

*April 2010*

## Clean- Up Days

We will be having our annual town clean-up during the first week of May. Please make every effort to ensure that your property is neat and tidy. We have entered the Tidy Towns Competition again this year, lets give them a good showing. Place your debris near the curb for ease of pick-up.

Trees, shrubs or auto parts will not be collected. It is your responsibility to deliver these materials to the waste site. We ask that you keep your garbage box in good repair and clean. No loose garbage.

## No Burning at Waste Site

### Safety Reminder

The  
NO BURNING POLICY  
continues to be in effect.  
For the safety of our town  
and its residents we ask  
that this policy be adhered  
to.

Violators will be  
prosecuted.

## FLUSHING

### Weather Permitting

Our Town Workers will be flushing our system April 26 - 29. You may notice some discoloration in your water and/or low water pressure. The existing BOIL ORDER issued April 16 will continue to be in effect. A flyer will be mailed notifying you once the order has been lifted. We apologize for the inconvenience this may cause.

## ROAMING DOGS

The Town of Norris Point has regulations pertaining to roaming dogs. It is illegal for these animals to roam freely. The Dog Catcher does routine checks to ensure this regulation is followed. Should your animal get caught, there is a fee of \$50 to have your animal returned. If your animal has been transported outside of town, additional return fees will apply.
