

June 3, 2020

Dear Residents:

As we have previously announced, the Town has been approved for Phase 3 of our Watermain Upgrade project. This area covers Main Street from the Town Hall to the Holland's Memorial Drive intersection.

Marine Contractors has been awarded the tender for the project and will be starting within the week.

Unfortunately, during this time you will experience water interruptions, boil advisories, and interruptions in traffic flow in the construction area. Please check our Town Website, Facebook Page, and VOBB regularly for updates on the project, notifications of water interruptions and advisories.

We thank you in advance for your cooperation and patience during this project. Please use caution and adhere to construction signage at all times.

Sincerely,  
Norris Point Council
